

June, age 67, is recently retired and looking for a safe, predictable place to reposition a portion of her savings. Her key priorities include:

- Protection of principal
- Guaranteed growth
- An enhanced death benefit value for her beneficiaries

The premium bonus available with the **Guaranteed Accumulator 3** directly supports June's goal of immediate, predictable growth by increasing her account value from day one. She decides to purchase this annuity with \$100,000.

DAY 1 PREMIUM + 3% PREMIUM BONUS	1ST YEAR ACCOUNT VALUE	ACCOUNT VALUE AT END OF TERM (3 YEARS)	EFFECTIVE ANNUAL YIELD 1ST GUARANTEE TERM*
\$103,000	\$108,305	\$119,747	6.19%

Guaranteed Initial Interest Rate 5.15% for 3 years. Assumes no withdrawals.

In addition, the Enhanced Death Benefit Rider provides confidence that her beneficiaries would receive an enhanced death benefit — up to 110 percent of the accumulation value — should she pass away early in retirement, helping to preserve and transfer wealth with certainty.

June's agent shared this example to show how the enhanced death benefit would work. If June passed away at the end of the contract term that **Account Value of \$119,747** would be multiplied by **110%** and her beneficiaries would receive **\$131,722 as a death benefit**. As her account value grows so does her death benefit.

Marquette Indemnity & Life Insurance Company

744 KING STREET, JACKSONVILLE, FL 32204
